

Bus-Scan[®] 500

Multi-Light Control

- Controls up to three separate vehicle light circuits
- Each circuit is independently fused for isolation and safety
- When activated, Multi-Light totally isolates the lighting circuit, to prevent back-feeding
- When deactivated, it is fully transparent to the vehicle's electrical system
- Works with all brands of child reminders, or even stand-alone
- Totally self-contained--no external components are required
- Quick installation--approximately 30 minutes

Dimensions: 4.25" x 2.25" x 1.5"

Weight: 4 Oz

Material: Flame-retardant ABS

Flame rating: UL-94V-0 (ID-3420 rated UL-94-5VA)
